Summary

Results-driven Software Engineer with a proven track record of developing and publishing innovative applications across multiple platforms. Specialized in full-stack development, AI integration, and cross-platform solutions. Demonstrated success in launching products with over 40,000 downloads and maintaining high-quality user experiences.

Technical Skills

- **Languages:** JavaScript/TypeScript, Python, HTML5/CSS3, Java
- **Frameworks (Frontend/Desktop):** React, Tauri (Rust-based), Material Design, Responsive Web Design
- **Frameworks (Backend/API):** Node.js, FastAPI (Python), REST APIs, WebSockets
- **AI/ML Systems:** RAG Systems, Multimodal AI Integration (Google Gemini, OpenAI), OCR, Document Processing
- **Platforms/Tools:** Windows Desktop, Android, Git, Android Studio, Visual Studio, Postman
- **Concepts:** Full-Stack Development, Privacy-First Design, Embedded Systems, CI/CD

Professional Experience & Projects

Self-Employed
Independent Software Developer *November 2022 - Present*

Key Achievement: Published 5+ applications across multiple stores, achieving **40,000+ combined downloads** across Google Play, Amazon Appstore, Huawei App Gallery, and Palm Play Store.

Project Highlights:

- **AI Hiring Assistant** (Proof of Concept / Internal Tool)
  - Developed an aggregation tool designed to process multiple CVs simultaneously.
  - Implemented a scoring system to evaluate candidate achievements and skills against job requirements.
  - Streamlined candidate evaluation and sorting processes using advanced document analysis.
- **LocalNote AI** (Windows Desktop Application, Published - Microsoft Store, Link)
  - Engineered privacy-focused document analysis tool using **React + Tauri** with embedded **Python FastAPI** backend.
  - Implemented **RAG system** supporting multiple AI providers (Google Gemini, OpenAI, Anthropic).
  - Developed advanced features including automated summaries, quiz generation, flashcards, and text-to-speech.
- **EonDev AI** (Windows Desktop Application, Link)
  - Built intelligent desktop assistant using **React + Tauri** with Node.js/TypeScript backend.
  - Implemented live meeting transcription with **real-time AI suggestions** and screen OCR.
  - Developed cross-platform compatibility and secure data export capabilities.
- **3D Surround Music Player X/+** (Android Applications, **40K+ Downloads**)
  - Architected music player with **custom 3D audio processing engine** and Material Design interface.

- Successfully deployed and managed application versions across **Google Play Store** (Link), **Amazon Appstore**, **Huawei App Gallery**, and **Palm Play Store**.

Communications Authority of Kenya
Internship *May 2023 - August 2023*

- Contributed to regulatory operations in the Postal and Licensing Department.
- Gained expertise in **ICT governance frameworks** and compliance protocols.
- Enhanced professional communication and documentation skills in a regulated environment.

Developer Status & Platform Credentials

- **Microsoft Store Published Developer**: Demonstrated commitment to Windows platform development by successfully publishing cross-platform desktop applications (EonDev AI & LocalNote AI).
- **Google Play Store Certified Developer**: Maintained developer compliance and actively managed app listing and updates.
- **Amazon Appstore Certified Developer**: Proven capability to adapt and publish Android applications for the Amazon ecosystem.
- **Huawei Certified Developer**: Expanded market reach and managed app distribution on the Huawei App Gallery.

Education

Egerton University
Bachelor of Science in Computer Science *2020 - 2024*

Focus: Software Engineering, Systems Architecture, Web Technologies. Relevant Coursework: Algorithms, Data Structures, Cloud Computing, AI Fundamentals.

Maseno School
Kenya Certificate of Secondary Education *2014 - 2018*
